

REPAIR PACKING SLIP

Please ship material to the address below. In order to expedite your evaluation, please include this form in the box with your repair.

Send To:
Pro-Active Fluid Power, Inc.
Attn: Repairs
46425 Continental Drive
New Baltimore, MI 48047

Name:
Contact Number:
E-Mail Address:

Please describe the problem that you were having with this unit.

Upon the receipt of your material, we'll begin our evaluation and failure analysis. Before repair is started, you will receive a phone call or e-mail with the findings and estimate to complete overhaul.

REPAIR POLICY:

- FITTINGS:** Remember to remove your fittings, couplings or any mounting fixtures from your unit before you send your material into us for repair. If your unit comes into us with such items, our technician must remove them in order to complete the unit evaluation, and a removal cost will be added to your repair pricing. Pro-Active is not responsible for and cannot guarantee the safe keeping and/or the return of such items with your repair once they are removed at our facility.
- PACKAGING:** Be sure to package and secure your item(s) properly to avoid loss or damage during transit. Pro-Active is not responsible for shipments not packaged by us, that are damaged and/or lost during transit.
- DECLARED VALUE:** We strongly recommend that you consider insuring/declaring either the repair or the replacement value of your merchandise during transit in the rare event that your merchandise is lost or damaged during transportation. Pro-Active Fluid Power is not responsible for loss/damage of material during transit.

Please contact if you have any questions or concerns.
